

The Education Summer Camp 2014

The Opening Ceremony

On 8th July, 2014, the first Summer Camp individually organized by the Confucius Institute at Bangor University opened at China University of Political Science and Law (CUPL). Ms. Fei Gao, Program Officer of CUPL Office of International Cooperation and Exchange, chaired the opening ceremony. During the ceremony, Director of CUPL Office of International Cooperation and Exchange, Prof. Lan Xu gave an opening speech on behalf of CUPL Vice-President Prof. Yong Zhu. Prof. Xu indicated that this was the first time for the Confucius Institute to independently organize a Summer Camp, and visits to primary and secondary schools were especially prepared by Co-Director of the Institute for these postgraduate camp members who are majoring in education.

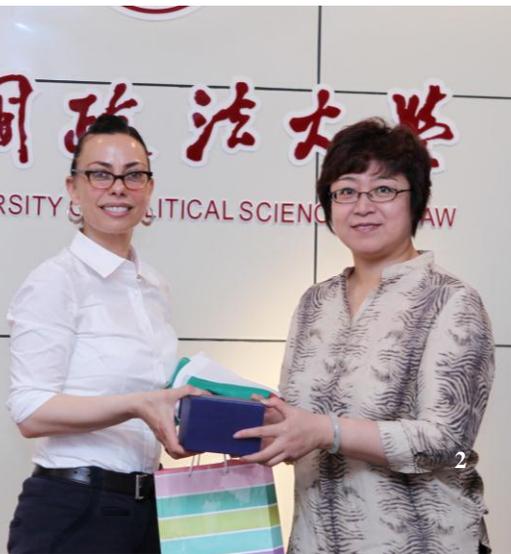

She said that Last year, we jointly held the first China Summer Camp with the CI University of Leeds, and Moscow State University. And this year we have our own China Summer Camp.

I wish you have a wonderful experience over the next two weeks, learning Chinese, getting to know more about Chinese Culture, and deepen the friendship between BU and CUPL. I wish the 2014 China Summer Camp a great success!

Ms. Xiaoyue Wu (Beijing representative of Bangor University) congratulated on behalf of the University all involved for the partnership work that had gone into organizing the first Education Summer Camp. The, every camp member including School of Education lecturer Shan Elin Williams gave a self-introduction in Chinese and introduced Bangor University and Wales to the Chinese faculty members. Following that, Prof. Lan Xu and Shan Elin exchanged gifts from the two universities.

5. Everybody like Kung fu Fighting!

The Great Wall

On 11th July, The camp members visited the Great Wall. The Great Wall of China is a series of stone and earthen fortifications in , built, rebuilt, and maintained between the 5th century BC and the 16th century to protect the northern borders of the Chinese Empire during the rule of successive dynasties. Several walls, referred to as the Great Wall of China , were built since the 5th century BC. The most famous is the wall built between 220 BC and 200 BC by the first Emperor of China, Qin Shi Huang; little of it remains; it was much farther north than the current wall, which was built during the Ming Dynasty. The Great Wall is the world's longest human-made structure, stretching over approximately 6,400 km (4,000 miles) from Shanhaiguan in the east to Lop Nur in the west, along an arc that roughly delineates the southern edge of Inner Mongolia, but stretches to over 6,700 km (4,160 miles) in total. It is also the largest human-made structure ever built in terms of surface area and mass.

He who
has never
been to
the Great
Wall is
hardly a
real man!
